# ABOUT US

Anvee Interiors Turnkey Solutions is an export company that deals with Natural and Engineered Stones as well as other flooring options. We are also involved in finishing products which include Wallcoverings, Carpet Tiles and Rubber Flooring. Our company always strives to expand its horizons and offer products that follow current and upcoming styles and trends, and are also on par with international standards. We have various ranges of products in our portfolio to ensure that we as a company fulfil all our customers' project requirements – including residential, commercial, retail, industrial.

Along with Natural Marble and Granite, Anvee also deals with Engineered Marble and Quartz- which combines the beauty of natural stone with technologically reinforced strength. Our Engineered Marble and Quartz products are supplied in both slabs and tiles formats, and are suitable for any interior or exterior applications. In addition to these items, our portfolio includes Ceramic and Porcelain tiles which integrate technological expertise with exquisite designs. Each tile is crafted using ultra- modern technology to ensure high quality.

We also provide vinyl wallcoverings that protect walls in heavy traffic areas against impacts, shocks, scratches, and stains. They are flexible and easy-to-install and help lower repair and maintenance issues. Another flooring option we offer is PVC - which is made to withstand any kind of traffic and is available in various designs and colours. PVC is also available in compact and acoustic profiles, developed to meet the end-users' sensorial, functional and environmental needs. Our rubber flooring meets the highest industry standards to provide athletic protection and enhanced performance, as well as extreme durability and reduced maintenance costs.

STATUATIO REGAL

# NEO- MARBLE

Our Neo- Marble collection includes innovative and Italian quality porcelain slabs, ideal for kitchen countertops, bathroom countertops, furniture, flooring and wall applications. These tiles are the perfect combination of quality and texture surfaces like marble, stone, wood, metal and concrete. The collection represents the original beauty of the colours and surfaces of natural materials giving life to the interior floors. Not only are they compact but resistant, modular, easy to use and maintain. Porcelain stoneware has become a favourite material for housing projects and the contract sector. Due to its solid composition and appearance, this material can be incorporated into spaces with high levels of traffic or exposure.
